Characteristic X-Ray

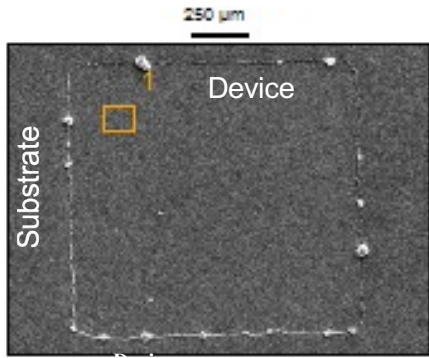

Electron relaxation generates X-ray radiation :

* <https://en.wikipedia.org/>

Energy Dispersive X-Ray Spectroscopy (EDX)

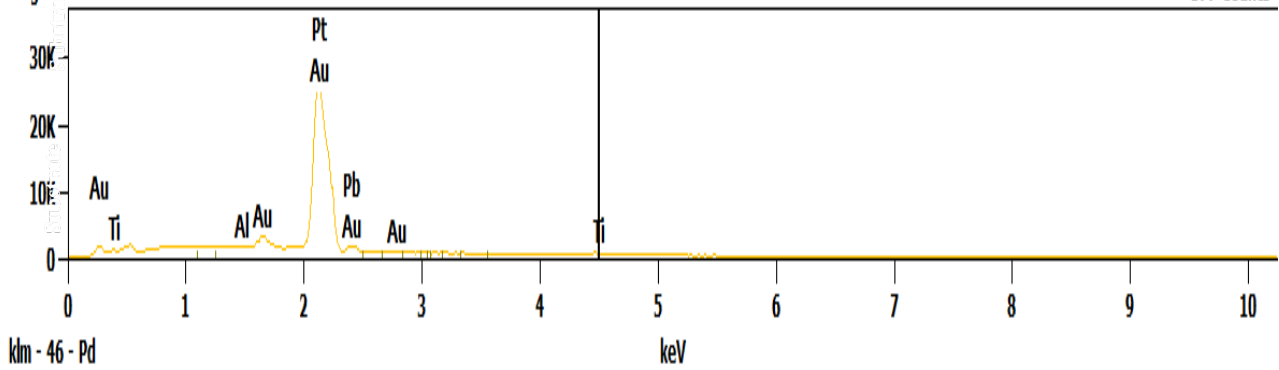

Full scale counts: 25054

Base(2)_pt1

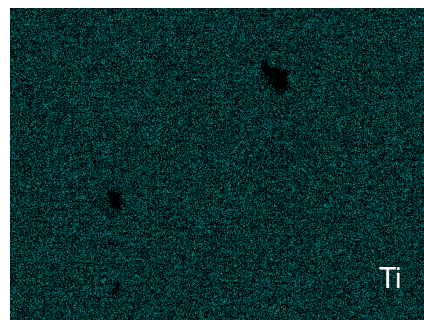

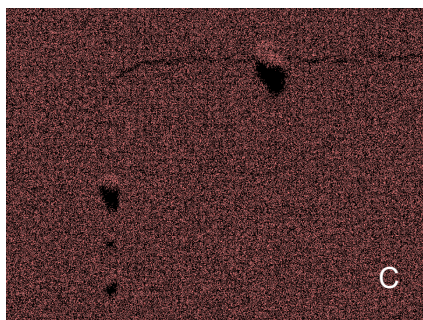

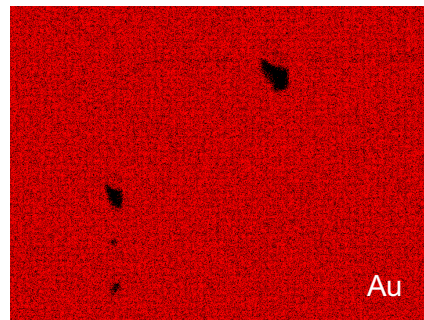

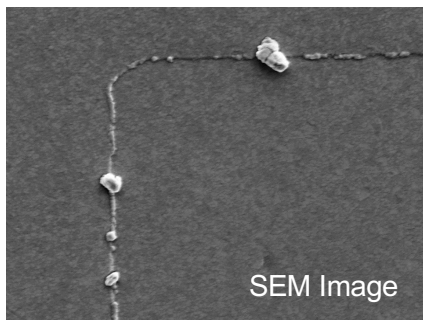

Cursor: 4.500 keV

Integral Counts: 917366

577 Counts

EDX Mapping

EDX Data Analysis

Determination of ferromagnetic and non-magnetic materials :

Using EDX mapping, ferromagnetic and non-magnetic materials can be determined.

Estimation of ferromagnetic grains :

Using EDX mapping, the size of ferromagnetic grains can be estimated. If possible, obtain a histogram of the grain-size distribution.
