POSTER SESSION ON ENGLISH LEARNERS OF OTHER LANGUAGES

The second language acquisition of French nasal vowels by advanced English learners
Adeline Charlton (Newcastle University)

Russian palatalized consonants: Acoustic properties of L2 learners' productions
Jane Hacking (University of Utah)

Compound loanword accentuation by English-speaking learners of Japanese: How do learners form their interlanguage prosody?
Nami Kaneko (Newcastle University)

L2 acquisition of prosodic structures of Japanese nouns by L1 English learners
Tokiko Okuma (McGill University)

Discrimination of vowel length contrasts in known/learned and unknown/unlearned languages by native speakers of American English
Kimiko Tsukada (Macquarie University), Yukari Hirata (Colgate University)

The lexical encoding of novel phonological features: Discrimination of Arabic phonemes by native English speakers
Aaron Wood (University of Utah), Asmaa Shehata (University of Utah)

GENERAL POSTER SESSION

The acquisition of L2 laryngeal features: the processing of robust transitional phonetic cues
John Archibald (University of Victoria)

Differential Substitution: Phonetic distance in the perception of interdental fricatives
Kathleen Brannen (McGill University / Université du Québec à Montréal)
