

Me, Myself and MRI – feedback

It's important to us to know what you think of the project so far. This will help us plan future sessions and will also let us know if there are any areas that we need to look at again and go over in more detail.

Please take a few minutes to fill in the following questions and bring this sheet to the next session.

Thank you!

Kirsty, Mark and Damian

Session One – introduction to the project

Was this session interesting? (please choose one option)

- | | |
|---|------------------------|
| 1 | Not interesting at all |
| 2 | Not very interesting |
| 3 | Average |
| 4 | Quite interesting |
| 5 | Very interesting |

After this session did you feel like you understood the project?

- | | |
|---|-----------------|
| 1 | Not at all |
| 2 | Not really |
| 3 | Sort of |
| 4 | Yes, a bit |
| 5 | Yes, completely |

Was there anything we could have explained more clearly or that you'd like to know more about? (please tick)

Who's involved in the project

What areas we'll be looking at throughout the project

What we plan on doing throughout the project

Your role in the project

What the end result will be

Don't forget to check out the project blog at <http://geodesicarts.blogspot.com> for useful links and background information

Session two – visit to York Neuroimaging Centre (YNiC)

Was this session interesting? (please choose one option)

- 1 Not interesting at all
- 2 Not very interesting
- 3 Average
- 4 Quite interesting
- 5 Very interesting

After the visit do you feel that you understand about how MRI scanners work?

- 1 Not at all
- 2 Not really
- 3 Sort of
- 4 Yes, a bit
- 5 Yes, completely

Was there anything you would have liked to cover in more detail? (please tick)

- About YNIC and What it Does
 - The tour around the centre
 - MEG machines and how they work
 - MRI machines and how they work
 - Images from MRI scans
 - Using the computer software to manipulate the MRI images
 - Ethics and MRI scans
 - Other (please explain in more detail below)
-
-

Was there one part of the visit that you especially enjoyed or found particularly interesting?

- About YNIC and What it Does
- MEG machines and how they work
- MRI machines and how they work
- Images from MRI scans
- Ethics and MRI scans
- Other (please explain in more detail on the next page)

Don't forget to check out the project blog at <http://geodesicarts.blogspot.com> for useful links and background information

Session Three – Ethics

Was this session interesting? (please choose one option)

- | | |
|---|------------------------|
| 1 | Not interesting at all |
| 2 | Not very interesting |
| 3 | Average |
| 4 | Quite interesting |
| 5 | Very interesting |

After this session do you feel that you understand about some of the ethical issues surrounding this project and what we plan to do?

- | | |
|---|-----------------|
| 1 | Not at all |
| 2 | Not really |
| 3 | Sort of |
| 4 | Yes, a bit |
| 5 | Yes, completely |

Was there anything you would have liked to cover in more detail? (please tick)

- What does Ethics mean?
- Gunther von Hagens and Body Worlds
- Dolly the Sheep/cloning
- Damien Hirst
- The ethical issues linked to this project
- Other (please explain in more detail below)

Was there anything that you especially enjoyed or found particularly interesting?

What does Ethics mean?

Gunther von Hagens and Body Worlds

Dolly the Sheep/cloning

Damien Hirst

The ethical issues linked to this project

Other (please explain in more detail below)
