

## The York Ear Model & 3D Ear Dataset User Agreement Form v.01

The *York Ear Model (YEM)* is a 3D morphable model of the human ear. This document sets out the terms of agreement of the model and its associated 3D ear image dataset.

The **full-time academic staff member**, named below, agrees to the following restrictions on the use of the *York Ear Model and associated dataset*, and will ensure that the restrictions are adhered to within their own institution:

1. The *York Ear Model and associated dataset* are available for non-commercial research and education purposes only.
2. The *York Ear Model and associated dataset*, or any portion thereof, will not be copied, sold, traded or exploited for any commercial purposes.
3. All submitted papers or any publicly available text using the York Ear Model and associated dataset must cite the following paper: *A Data-augmented 3D Morphable Model of the Ear, H. Dai, N. E. Pears and W. Smith, Proc. 2018 IEEE Int. Conf. Automatic Face and Gesture Recognition.*

*Please add your details in the table below, then sign and date. Email a copy to Nick Pears (nick.pears@york.ac.uk).*
